

*Get Storied!*  
*Storytelling & Education*

*Sermignano, Italy*  
*22nd - 29th August 2015*

## *Call for Participants*

**"Get Storied" is a Mobility of Youth Workers activity promoted by the Italian organisation Cooperativa Sociale Muovimento. The course wants to make trainers, facilitators and youth workers aware of the many and various uses of the non formal educational method of Storytelling and show them how it can be used to work with young people, helping them to develop a big number of important abilities and competences in the professional and personal sphere.**

**The project will take place in Sermignano, in the area of Viterbo, Italy, from the 22<sup>nd</sup> to the 29<sup>th</sup> of August 2015. It will involve 22 participants and 4 staff members from 11 different European countries (Italy, Belgium, Czech Republic, Romania, Poland, Spain, Hungary, Ireland, Greece, UK and Portugal).**

## THE OBJECTIVES

The main objectives of this training course are:

- To discover and understand the employability competences that are developed through storytelling;
- To create an intercultural network of youth workers and organizations that use the method of storytelling in developing employability skills;
- To explore the concept of "transformational storytelling", how to use storytelling as tool for innovation to change and self-development;

## WORKING METHODS

Stories are the foundation for how we communicate. They enable us to make a personal connection to content on a deeper and richer level, more than a mere list of facts can. And how we narrate and read facts determines how we will remember and integrate them. That's what learning is. When we approach "learning" in a more traditionally structured way, it can be a struggle for people. But stories enable us to learn without feeling like we are learning, without straining to get it right.

During the course we aim to show the value of using storytelling in training in an experiential way and provide practical applications, exercises, and techniques to harness our innate ability to tell and receive information through stories. We'll approach storytelling in many of its ways and forms, with a particular focus on the elements of Hero's Journey model, digital storytelling and gaming, theatre and role-playing and practises of personal storytelling.

## TRAINER TEAM

**Carmine Rodi Falanga, Italy – trainer profile:**
