*Passion for
Learning*

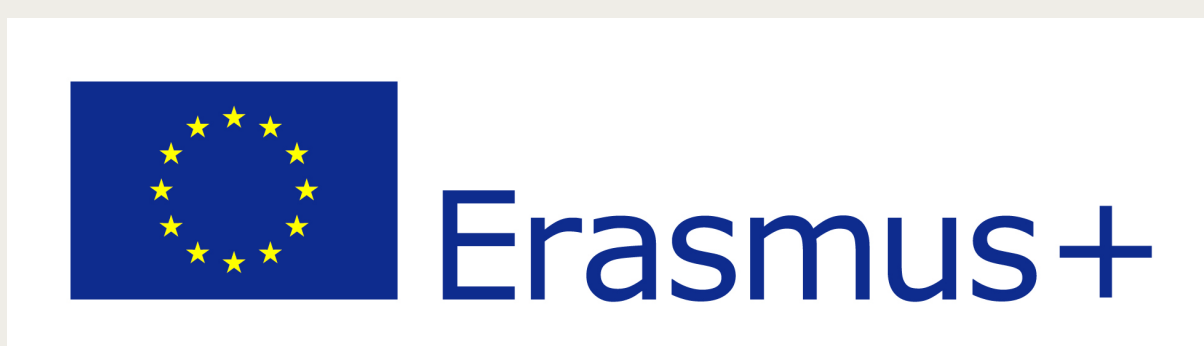

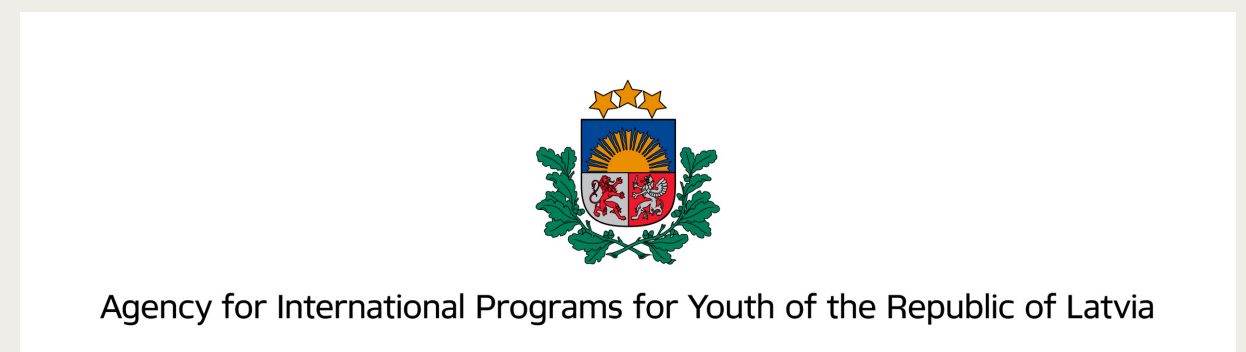

Online

Meet your trainers: Natalja and Aune are running the “Passion for Learning” training course for the 3rd time and for the 1st time online!

Natalja Gudakovska has background in youth work and psychology. She is a trainer of Trainers Pool of Youth Department of the Council of Europe and Latvian National Agency of Erasmus+: Youth in Action Programme since 2006. Her professional interests are: learning, learning motivation, self-directed and game based learning. Natalja believes that learning and youth work are strongly connected fields. She thinks that non-formal education has an incredible power to support people in building their lives. She is curious to experience this Pilot online edition of “Passion for Learning” training with you!

Aune Lillemets has a background in youth work: being a mentor to the student companies and European Youth project teams, working in a youth camp in Greece and most recently, delivering social entrepreneurship courses to the youngsters. She has been giving trainings since 2005, mostly about social entrepreneurship, project management and active learning methods. Aune is passionate about the topic of learning. Her initial interest was learning about active learning methods, especially drama methods and using them for trainings. Recently her focus has shifted to the brain science and digital learning.

Organisers: Latvian and Estonian National Agencies of the Erasmus+: Youth in Action and European Solidarity Corps programmes.
