Some help with words!

Asynchronous: It is another way of saying that we don't have to be all of us online as a group at the same time for carrying out the tasks required. You can go online at your own pace and at any time of the day (or night!) and deal with what is asked! However, there is a certain time frame (a few days, usually) for each session within which you have to have the tasks done!

'Zoom' : This is a very popular online, video-conferencing platform. It goes without saying that a **'Zoom' online group meeting** requires your presence (technically speaking, the trainers' team will invite you), that's why a specific timing is marked on the dedicated column. Your registration to the course means, among many other things, **that you have already marked these timings at your agenda and you will be 100% present!**

Q&A: Simply means, 'Questions & Answers'. Usually refers to a moment that an expert is joining and the learners' group can 'fire-up' questions!
