CÉLULAS DURMIENTES ASSOCIATION

Framed in the strategies of social movements that defend equity, respect, feminism and tolerance of all people regardless of their social status; this association aims to promote interculturality and gender equality through social action projects, cultural management, sensitization campaigns and educational intervention. It is aimed to empower youth and communities in order to find the tools to enable them to transform their own realities. As it is said, the organization believes that the key for transformation is to encourage effective social behaviour and values to make citizens responsible within their daily day and engaged within their communities.

In general, our projects have as the main goal, to offer a common safe space where the people can feel free to express themselves, to share skills, experiences and ideas, and where the equal relation between us brings the opportunity for dialogue and deep understanding.

PROJECT DESCRIPTION

Gender equality has a universally recognized benefit for people. However, our visual references (media, advertisements, movies, ...), are still full of sexist stereotypes and vividly illustrate the depth of stereotypes permeating our contemporary civilization. **Yet everyone have much to gain equality of all people, genders and sexes.** This project offers professionals and young artists from different European contexts, a privileged opportunity to unite, in Spain, your perception and your actions in favor of the mobilization in favor of gender equality.

We have chosen to address feminism through the use of creative digital tools because images are a powerful tool for reflection and call to action, and digital media has the widest impact reach. We intend to bring everyone messages for gender equity and equality through digital images.

Our workshop in **Segovia, Spain, March 22-28, 2020**, will invite youth workers and artists to lend their support to involve youth for gender equity.

The participants profile includes **youth workers, social workers, facilitators, pedagogues, artists, sociologists and gender equality activists** who has their residence in **Italy, France, Poland, Bulgaria or Spain**. However, all of them should have: a clear interest in the project, the desire to develop their own personal and professional knowledge, attitudes and skills on this subject and the desire to exchange, interact and work with professionals from different disciplines.

We will try to end the Workshop with a **Final Local Exhibition** of comic strips to engage young people in favour of gender equality.

"La culpa no era mía,

ni dónde estaba, ni cómo vestía"

FACILITATORS

Anne is a creative explorer. Whilst studying visual arts and interaction design in France, she discovered game dynamics through creative coding and interactive books. Excited about the whole thing, she co-founded Nomadways (www.nomadways.eu) in 2014, where she started crafting and animating workshops mixing performing and visual arts, to explore new ways of playing and learning in Europe and beyond. In the meantime, she lived in Greece, Brazil, Seychelles, Portugal and elsewhere in between, experimenting with playful ways to interact and discover one another in multilingual or non verbal settings. Along the way, she collected myriads of tools & methods for collaborative creation, specializing in team dynamics and project design using art, movement and stories to foster cooperation & social action.

Hélène is a pedagogic activist ! Indeed, for many years she worked as project Coordinator in NGOs involved in the non-formal education workshops and she has been a non formal education free-lance trainer for 5 years. Passionate about the performing arts (pantomime, clown, masks, impro, costume), she uses it as tools to develop critical thought to lead to empowerment. Passionate about pedagogy, she has developed original training courses based on self-directed training and learning trips. The exploration of new ways of learning is her keystone. Her involvement in European mobility programs for fifteen years led her to join the Nomadways team in January 2019. She also works in the professional training field, where she gives sociology courses to social and youth workers.
